APIs & Freebies

Looking for a cool API to hack on? Need a place to publish your hack on the Internet? You've come to the right place! Our sponsors have assembled a ton of great freebies and promotions for you to use on Local Hack Day.

GitHub

With the GitHub Student Developer Pack, you get the best developer tools out there like private GitHub repositories, HackHands programming help, SendGrid e-mail API credits, Stripe payment processing, and more! All you need to do is sign up and verify that you are a student.

Twilio

communication platform out there.

Upgrade your account and use promo code **LHD2017** for **\$25** in credit!

Learn how to add the credit to your account with this tutorial.

[Sign up for Twilio](#)

Clarifai

Build amazing apps with the world's best image and video recognition API.

Clarifai automatically tags all your images and video so you can quickly organize, manage, and search through your content. It's fast, easy, and incredibly accurate.

[Sign up for Clarifai](#)

Hasura

Hasura provisions a managed server (single-node or a cluster) for you in minutes. Each server comes with data, auth, filestore APIs (BaaS) backed by postgres, that instantly integrate with your app.

Host custom code in any language on this server with just a 'git push' (APIs, webapps, static-

Domain.com

Domain.com is giving every MLH Local Hack Day attendee a **FREE .com, .net, or .org** domain name plus free **Whols Privacy** (make sure to enable Whols privacy when you check out!)

Make your project easy to discover with an awesome domain name. It could be for your new startup, your personal portfolio, or for your MLH Local Hack Day project.

[Get your free Domain name](#)

Amazon Web Services (AWS)

MLH student hackers are eligible to receive \$100 in Amazon Web Services (AWS) credit to host their hacks in the cloud. AWS has the latest, greatest tools used by companies like Adobe, Airbnb, Spotify, and more.

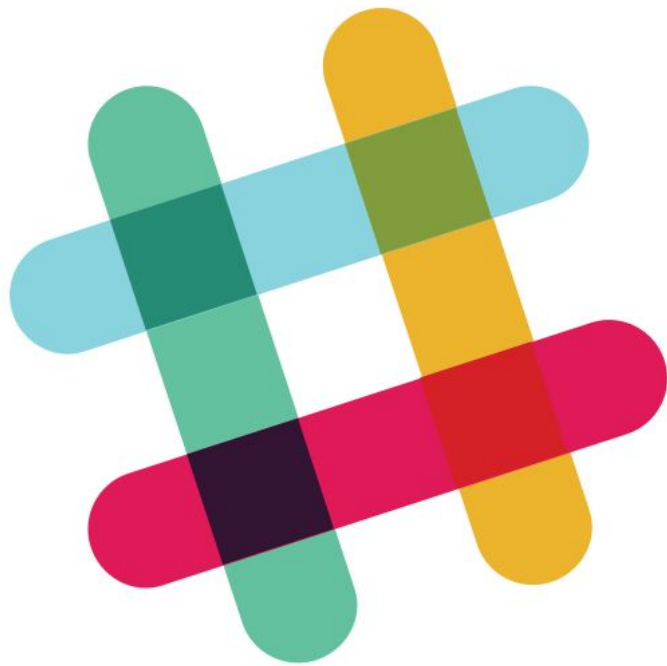

Sign up today and get ready to deploy your next project to AWS!
